23rd February 1983

Dear Jack,

European Patent Application 80 302 646.7
Your Case: PM 913 - Our File: 23348

I am pleased to report the acceptance of the above application and enclose a copy of the Advance Notice together with a copy of the proposed text for the granted patent.

I have checked the proposed text, and it seems to be in order. The Examiner has made his own minor amendments on the first four pages, but these only correct one spelling mistake and alter the patent designations to the form approved for EPO publications.

If you also agree with the proposed text, we could inform the EPO of our approval, following which the grant procedure will proceed. In any event, if we do not object within two months the procedures will follow automatically.

Perhaps you would let me know if you approve the text or, more urgently, if you have any objections at this stage.

I am sending a copy of this letter and the text to Richmond, in case they may have any last minute thoughts on the case.

Yours sincerely,

J.H. BASS
